

Terms and conditions for the waiting list

Version 1.1

15/01/2020

1. About the waiting list for a .dk domain name

- 1.1 DK Hostmaster manages and maintains a waiting list for .dk domain names. Any natural or legal person may be included on the waiting list for a .dk domain name that is already registered to someone else.
- 1.2 The waiting list means that there is a queue for registering an already registered domain name. The first person on the waiting list will be offered registration of the domain name if it is deleted.

2. How to be added to the waiting list

- 2.1 A request to be added to the waiting list for a domain name must be submitted via DK Hostmaster's self-service portal: <https://self-service.dk-hostmaster.dk/>. To be added to the waiting list, applicants must search for the desired domain name using the WHOIS lookup tool on DK Hostmaster's website.
- 2.2 It is possible to be added to the waiting list even if there are already others on the waiting list for the domain name in question. Applicants are added to the waiting list in the order in which DK Hostmaster receives the requests for addition.

Those applying for addition to the waiting list for a domain name will be able to see their position in the queue when they send the request and before addition to the waiting list.

3. Contact information

- 3.1 Applicants for addition to the waiting list for a domain name must provide their contact information, i.e. name, address, telephone number and email address. If the applicant is a Danish legal entity, the business registration number (CVR) must also be provided.
- 3.2 If applicants are already users of DK Hostmaster's self-service portal, they may enter their existing user ID.

4. Payment for addition to the waiting list

- 4.1 There is a mandatory fee, payable to DK Hostmaster, for addition to the waiting list. This fee ensures a place on the waiting list from the date of addition to the end of the month and to the end of the following year.
- 4.2 A further fee must be paid to DK Hostmaster to retain the place on the waiting list after the first year. If this fee is not paid for the subsequent period, the place on the waiting list will be deleted.
- 4.3 All payments must be made according to DK Hostmaster's instructions. All fees are available on DK Hostmaster's website.

5. Assignment of a domain name

- 5.1 When a domain name with a waiting list is deleted, DK Hostmaster sends a message to the applicant at the top of the waiting list, offering registration of the domain name. The message includes instructions on how to register the domain name.
- 5.2 Registration of the domain name requires that the applicant enters into an agreement with DK Hostmaster on the right of use to the domain name and provides proof of contact information and identity using NemID or upon request by sending other documentation specified by DK Hostmaster.
- 5.3 The applicant at the top of the waiting list has 14 days to register the domain name. If the domain name is not registered within 14 days, the domain name will be offered to the next person on the waiting list.
- 5.4 Anyone who registers a domain name after it has been offered via the waiting list must pay domain fees, cf. the list of fees on DK Hostmaster's website.
- 5.5 If no one on the waiting list chooses to register the domain name, it will be released for registration on a first come first served basis.

6. Changing name servers

- 6.1 Anyone who has been offered and has registered the domain name via the waiting list, and who therefore is a new registrant of the domain name, must change name servers from the DK Hostmaster waiting list name servers to an internet provider's name servers no later than 14 days after the registration date.

There are step-by-step instructions on how to change name servers on DK Hostmaster's self-service portal.

If the registrant has not changed name servers within 14 days of registration, DK Hostmaster may suspend and delete the domain name.

These terms and conditions are laid down in accordance with section 14(1) of the Danish Domain Names Act. DK Hostmaster A/S is obliged to observe good domain name practice in the laying down of these terms and conditions; see section 14(3) of the Danish Domain Names Act.
